

A stream of trading case studies

...every day the markets are open!

Envelop yourself in a world of trading as master traders tackle today's market conditions.

Follow different case studies throughout the day in the live classroom, get alerts as new case studies* are released, and learn how traders react to news, volatility, market movement, and other new market information.

- LiveTrade 4.0 Upgrades!**
- Live daily sessions
 - New Dashboard
 - LiveTrade Index
 - iPhone app
 - And more...

Prerequisite: Optionetics Trading Essentials Class

NEW! LiveTrade 4.0 Platform!

LiveCast

Join your fellow subscribers and the LiveTrade Anchor in a **live 90-minute interactive session** each day the market is open to ask questions and discuss trade analysis in an online group setting.

Want to hear what the LiveTrade Anchor and other LiveTrade subscribers think about your technical analysis and views on a stock? What about the options trade you're considering? This is the place to lay it all out on the table and get thoughts and observations from other traders.

If you miss a live session, we've got you covered! Each live session will be archived for viewing for 10-days following the live broadcast.

LiveTrade Index

The new LiveTrade Index is a great way to track the results of Case Study and Strategy Spotlight trades in the market. While not a recommendation service, use the index as a reference for performance of trades using different strategies.

LiveTrade Dashboard

Start your daily LiveTrade session from the new Dashboard. With an overview of LiveTrade activity from the past few weeks and quick links to the most recent LiveCast, Case Studies, Evening Rundowns, Blogs and Strategy Spotlights, you'll be able to get back to learning new strategies in no time.

LiveTrade Case Studies

Learn from experienced instructors and get even more updates and adjustments to case studies. Your instructors post trading case studies throughout each trading day to help you analyze which strategies are working, and how to control risk in each day's market conditions. You can also submit your own trades for analysis.

Alerts

Get e-mail, Twitter or text message alerts whenever a new LiveTrade case study is posted and whenever someone responds to a comment you've posted.

Brainstorm

Join a vibrant community of students sharing ideas, screen shots and even their own trades.

Weekly Blog

Each week, typically on Wednesdays, you'll have a new video blog post from our top trading instructors. They'll alternate posting every other week so you can get a sense of their take on the markets and what strategies, systems, and sectors they're covering each week.

Strategy Spotlight

Every two weeks a particular strategy is spotlighted; specifically, one that could be a good fit in live market conditions. A LiveTrade instructor will spend about 10 minutes working up a strategy, and showing you the market activity that is making that strategy one to watch.

Follow This Post

Now, with a single click, you'll be able to receive notifications whenever someone comments on a particular post, even if you haven't commented on that post yourself. This will be a huge time saver and provide easier access to feedback from the LiveTrade community.

Strategy Library

A library of 90-minute pre-recorded classes that you can access at any time to brush up and refresh your knowledge on various options strategies.

And even more!

*Case studies and LiveTrade Index being provided are historical examples illustrating how a particular options strategy could have been applied. Optionetics, Inc. ("Optionetics") is not providing students with real time trading opportunities. LiveTrade, including Case studies and the LiveTrade Index are for educational purposes only.

REFUND POLICY: This order is non-refundable unless canceled within three (3) days from the date the order form was executed by the Student.
